29 November 2020

To: Parents, Guardians, Staff and Students of Acwsalcta School, Snuqaax Mamnta, Bella Coola, BC V0T 1C0

This letter is to inform you that COVID-19 exposure occurred in Acwsalcta School.

The exposure occurred on **24th, 25th, & 26th November 2020, and affects Grade 7, 8, 9, 10.**

Please be reassured that the current COVID safety plans in our schools, when followed correctly, are very effective in preventing transmission.

Public Health is working closely with the school to identify any close contacts among staff or students. **Anyone identified as a close contact will be notified directly by public health** and asked to isolate for 14 days from their last date of possible exposure.

If you do not receive a call from public health, your risk of exposure is considered to be very low and we do not recommend that you isolate at this time. You and your household can continue with your normal daily activities. We will continue to monitor the school and will communicate any updates to our recommendations.

New illness related to this exposure may occur 14 days from the last date of possible exposure. We recommend 14 days of self-monitoring for illness resulting from this exposure using the standard daily health checks. After 14 days, daily self-monitoring should continue due to potential for ongoing exposure in the community. If you develop new symptoms consistent with COVID-19 within those 14 days, please seek testing and bring a copy of this letter with you to the testing site. For more information on testing, please visit <http://www.vch.ca/covid-19/covid-19-testing>

Please DO NOT seek COVID testing if you do not have symptoms. Testing is not recommended while asymptomatic because results are not accurate or useful.

Key symptoms of COVID-19 include:

- * Cough
- * Nausea, vomiting, diarrhea
- * Loss of taste & smell
- * Fever/chills
- * Shortness of breath

For more information on COVID-19, please visit <http://www.vch.ca/covid-19>

Yours sincerely,

VCH COVID-19 Public Health Response

On behalf of,
Office of the Chief Medical Health Officer, Vancouver Coastal Health
